

# Lexa PREMIUM POSTPARTUM RECOVERY SUPPORT

The LEXA™ by Body After Baby is the most versatile and personally customized postpartum recovery support for both natural and C-section recovery. Packed full of exclusive patent pending user-friendly features, the LEXA is easily converted to Mom's personal recovery needs, body types, and lifestyles...on demand! Whether needing a mild level of support, or a more stabilizing firm level, the LEXA has Mom's covered, with confidence and in comfort!

**3** LEVELS OF SUPPORT  
JUST HOW YOU NEED IT!

MILD (FLEXIBLE)  
MODERATE (SEMI-RIGID)  
FIRM (RIGID)

## BENEFITS FOR BETTER HEALING AND RECOVERY

**STABILIZES** muscles and joints, assisting with balance to aid with the healing process.

**RELIEVES** aches and pains in your lower back, hips, pelvic, and sciatic areas.

**SUPPORTS** and compresses weak abdominal muscles, providing stability for loose insides.

**IMPROVES POSTURE** by supporting an upright strong position, reducing stress on joints.

**PROMOTES CIRCULATION** and helps to reduce swelling and inflammation.

**HEAT + ICE Therapy** included with the gel pack for soothing relief and comfort.

# Lexa REMOVABLE SUPPORT PANELS

*Transition From Flexible To Firm Levels Of Support With Ease!*

## BACK SUPPORT

The LEXA's BACK support panel provides increased stability and structure when a moderate to firm level of support is desired. Simply insert the panel into the back pocket located underneath the compression straps.

## HIP (SIDE) SUPPORT

The LEXA's removable SIDE support panels provide increased stability and structure when moderate to firm support is desired. Simply insert the panels into the side pockets located on the inside of garment, over the hips.

# Lexa THERAPEUTIC HEAT + ICE

*Soothing Comfort For Aches And Pains, On Demand!*

## BACK HEAT + ICE

Insert the gel pack into the back pocket to relieve back pain and associated discomforts from labor and posture changes, used with or without the provided back support panel.

## FRONT HEAT + ICE

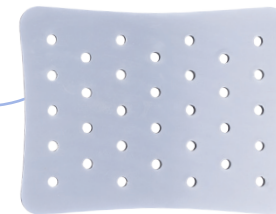

Insert the gel pack into the front pocket to reduce swelling and soothe discomforts while healing from C-section incisions, and to minimize swelling and cramping pains.

# EXCLUSIVE DESIGN FEATURES : FRONT

## HEAT + ICE THERAPY PACK

Inserted into the front inside pocket for pain relief and soothing comfort from C-section incisions, swelling, and discomfort.

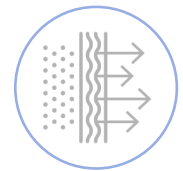

## HIP (SIDE) SUPPORT PANELS

Placed inside side pockets when a firm level of support is desired and to compliment the back support panel.

## LEXA SIZE AND FIT DETAILS

SIZE	WAIST	HIPS	PRE-PREG PANT SIZE
XS	25-26	35-36	0
S	27-29	37-39	2-4
M	30-32	40-42	6-8
L	33-35	43-45	10-12
XL	36-39	46-49	14-16
2XL	40-43	50-53	16-18
3XL	44-47	54-57	20-22
4XL	48-52	58-62	24-26

**Fit Notes:**

Measure the smallest part of your waist, typically above your belly button, and then the widest point on your hips. Pre-Pregnancy Pant size reference is provided as a guide.

If you are between sizes for either hips or waist measurements, please select the larger size, our compression garments provide plenty of support for in-between sizing and are designed to fit comfortably snug.

**Material Content:**

Body: 76% Nylon / 24% Lycra  
Inner Panel: 68% Nylon / 32% Lycra  
Panels: (HDPE) Polyethylene  
Latex Free
